Summary

Full Stack Developer with 3+ years of experience building scalable web applications and microservices. Proficient in Python, Java, and React. Passionate about clean architecture and cloud-native development on AWS.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, SQL

Frameworks: Spring Boot, React, Flask, FastAPI, Node.js

Databases: PostgreSQL, MySQL, MongoDB, Redis

DevOps/Cloud: AWS, Docker, Kubernetes, Git, CI/CD

Other: REST APIs, GraphQL, LangChain, Streamlit

Experience

Software Engineer — Infosys, Hyderabad

Jul 2022 – Present

- Designed and implemented RESTful microservices using Spring Boot serving 500K+ daily requests
- Migrated monolithic application to Docker/Kubernetes reducing deployment time by 60%
- Built React dashboards for real-time analytics integrating with PostgreSQL data warehouse
- Led a team of 3 junior developers; conducted weekly code reviews

Software Developer Intern — StartupXYZ, Hyderabad

May 2021 – Jul 2021

- Developed Flask REST APIs for user authentication and data ingestion pipelines
- Optimised SQL queries reducing report generation time by 35%

Education

B.E. Computer Science — BITS Pilani

Graduated 2022 | CGPA: 8.6/10

Projects

RAG-based Financial Document Analyser

Built a retrieval-augmented generation pipeline using LangChain and FinBERT to answer queries over 10-K filings. Deployed on Streamlit with vector search via FAISS.

Autonomous Task Management System

Full-stack project manager (Spring Boot + React + PostgreSQL) with JWT auth and WebSocket notifications.
